

Remote Family Members Dental Care NON-ORTHODONTICS

The Government and the TDP contractor neither endorse the providers on the OCONUS Provider Listings nor control the quality of service they render. The fact that a local provider has been determined to meet established military guidelines in the past does not guarantee acceptable future service. The government's control over local providers is limited to their inclusion in or exclusion from the provider list. A copy of any complaint or concern about host nation provider service/quality of care should be forwarded to the Tricare Pacific Lead Agency.
